

## Oral History Project

The Oral History Project was started in 2010. Phase 1 of the project resulted in 8 interviews being completed by Christine Crilley-Everts. Each year since then, we have continued to interview retired park wardens. To date, we have collected over 75 interviews. The past several months, we have been fortunate to contract Mary Dalman, Monique Hunkeler and Susan Hairsine who have interviewed many individuals. Over the years the project has been funded through memberships, donations and funding support (Phase 1 and Phase 2) through grants from the Province of Alberta Community Spirit Program. In January of 2019 we applied for a Research Grant with the Province of Alberta. The Alberta Historical Resources Foundation approved a generous (matching) grant in the amount of \$5,220.00 for Phase 9 of the Oral History Project. We acknowledge our appreciation of this grant. Each of the Phase 9 Oral History transcriptions has the following on the first page of the transcription. ***This Oral History interview was funded in part by a research grant received in 2019 from the Government of Alberta through the Alberta Historical Resources Foundation.***
